

# Camp Creators

Camp Creators is an innovative program offered by Abilities in Action, designed to empower school-aged children (those entering 4th-6th grades) to take the lead in their own learning and development of executive functioning skills. In this unique group, children will have the opportunity to engage in activities that promote problem-solving, compromise, time management, and effective communication with their peers.

Led by licensed therapists, Camp Creators provides a supportive environment where children can explore their creativity, collaborate with others, and build essential life skills in a fun and interactive way. Through a combination of structured activities and open-ended play, participants will learn how to plan, organize, and execute their ideas while navigating challenges and setbacks along the way.
